## **A. Verbal Communication**

The process of sending and receiving messages with words, including writing and sign language

### **1. Indirect Verbal Style**

Language that makes the speaker true attention in aroundabout and ambiguous way

### **2. Direct Verbal Style**

Language that openly states the speakers intention in a straightforward and unambiguous way

### **3. Phonology**

Sound used pronounce words

## **B. NONVERBAL COMMUNICATION**

All the message we send in ways that transcend spoken or written words. There are much more examples of how we send Nonverbal message, this is because our body language takes 55% of our communication!

### **Emblems**

Gestures that substitute entirely for a word or words

### **Personal Space**

The distance we try to maintain when interacting with others

### **Chronemics**

How we interpret the use of time

There are 2 systems that we use in Chronemics

#### **1. Monochronic system**

In a monochronic system, things are done one at a time and they are scheduled

#### **2. Polychronic system**

In a Polychronic System, several things can be done at once and schedules are flexible

### **Physical Appearance**

The way we portray our self in face-to-face communication with others

It is the first impression we have on others, even before we start talking to him
